

What's HOT! *continued*

Hot & Fertile - Whippoorwill

For over 20 years Whippoorwill farm has been producing top-notch vegetables for Island residents without synthetic fertilizers or chemicals and

supplying restaurants, farmers markets, farm stands and super markets. The current focus for

Whippoorwill is its CSA program and members. What is a CSA (Community Supported Agriculture)? "It is a program where people in the

community buy a share in the farm's harvest for the season." At the start of the year, members pay for a share which helps fund the farm for that year. The good news is you are part of a community in a special way and you get fabulous, fruits, vegetables and flowers, weekly. You

also share in the risks of pests and bad weather. It is enormously satisfying and good for the body, soul and community. info@whippoorwillfarmcsa.com

Hot Rags - Stina Sayre's Designs

Stina Sayre Design is a hot find for cool clothes. Classic, clean designs with a hip twist made from European fabrics left over from big designers in NYC spell a unique product.

Stina describes her designs as "wearable art" like the versatile rock and roll, candy wrapper coat made for serious dress up or jeans.

Her clothing confections for the summer season include materials of linen, cotton, cotton organdy

and metallic silk and linen. If you want something magical and unique for a wedding, Stina is the lady to see. She loves people to visit her boutique/studio/showroom so they get a sense of the artistic design process.

See patterns, bolts of material and ideas in progress. Check out her fantastic, fashionable and durable handbags made of seatbelt

material. Stina is a Swedish transplant since 1989 and can be found in her working showroom on the Beach Road Extension, across from the Black Dog Tavern in Vineyard Haven. (508) 560-1011. stinasayre@aol.com

Hot Spot - Right Fork Diner

When things get a little crazy and the need to be "far from the madding crowd" arises, *The Right Fork Diner* in Katama is the

perfect escape. Set on the edge of the *Katama Air Field*, the mist of South Beach in the distance, it feels like another place and time. Fabric from shirts of local pilots, after they've "soloed" adorn the walls, along with a colorful and quaint mural of life on the airfield. Indoor and outdoor seating and plenty of room for kids

to run around. Best of all is the food - affordable, delicious, upscale and everything made from scratch. Their breakfasts are a well known hit, but the real secret is the quiet, relaxing lull around late lunch and dinner. Fancy sandwiches, beer and wine, smoothies, ice cream, frappes, burgers, salads with house made dressings and fried seafood embellish the menu. One of the best deals in town is their Friday

night, Caribbean BBQ. Choice of chicken and ribs or a hot dog and burger, coleslaw, potato salad, corn bread and a revolving list of scrumptious desserts for the single price of \$35.00. AND tons of free parking!! Open 7 days a week. Katama (508) 627-5522.
